WEEKLY CITIZEN. TERRITORIAL PRISON.

Fat Take For Dishonest Officials.

Attorney General Hency Interviewed on the Late Appointment.

A Civizen reporter called on General Heney Just Tuesday and the following eversation took place, to wit: Question by reporter. Did you read

he editorial about the territorial prison in last night's Cirizen? Answer by General Heney. I did and regret very much that the matter has een publicly discussed. I have no idea how it got out as I have refrained from

saying anything to anyone but my most intimate friends.

Q. Have you any obj clion to stating you views on the subject, General. A. Since the matter has become pub

c property I will say this much. There no quarrel or misunderstanding whatever between Governor Bughes and myself. We differ on the question It had been caught in a wire rat of the appointment of a superintendent of the territorial prison, however. The overnor desired to appoint Thomas Paul will again enter the employ of Gates at once, but the investigation of prison affairs made by Mr. Meade and myself led me to the conclusion that it would be unwise to appoint Mr. Gates until we had completed the investigaone and Expert Heney, if at all. was forced to this conclusion by finding that the system of accounts at the ers, have been carried on in such a loose manner as to brand nearly every official barged by law with these duties as ither utterly incompetent or grossly and inexcusably negl gent, if not criminal. A large amount of stealing and fraudulent and corrupt practices took place during the former administration of Mr. Gates, and while I have no rea-son to suppose that he participated in unlawful gains, I consider his appointment exceedingly unwise until a thorough investigation of these frauds

Q. What do you think of Mr. Gates'

and stealings places the blame where it

justly belongs. I have no candidate for he prison superint-indency and I have

no interest to subserve other than the

qualifications for the place aside from he objection just stated? A. Upon that question I have noth-ing to say to the public except that I am opposed generally to the appointment of any professional gambler or saloon keeper to a position such as that, especially in view of the platform, I m ght call it, upon which Governor lughes' appointment was secured. have no personal knowledge of the os-copation of Mr. Gates during the past enty years, but as Governor Hughes as known bim-intimately during all of is time I presume he has satisfied mself that the charges preferred against Mr. Gates on this score are ununded as he has frequently expressed the same views I have just enunciated The maintenance of the prison cast as much as any other territorial institution, and the leakage heretofore existing there has been sufficient to run the territory behind and thus compe us to pay interest on territorial warrants The superintendent supervises all purchases and distribution of supplies and The first homestead ever filed in the he ought to be a man of fice executive capacity.
